

FIBRE-CEMENT PLUG RIVESTOP

Simple and effective solution for covering holes in concrete walls to obtain a clean and smooth surface of the wall.

The Rivestop fibre cement plug is characterized by its speed and simplicity of installation. Without tools, by simply pushing it in with the hand, a firm anchoring in the wall opening is achieved.

The first mechanically self-attaching fibre cement plug.

Fast and easy installation

Labour cost savings

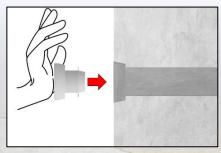

Clean solution, **no adhesives** at all

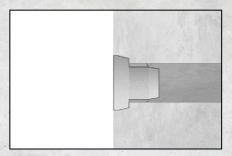

Installation without tools

Perfect wall finish

1. Simply insert the plug into the hole in the concrete wall with your hand.

2. In this way, a smooth, clean surface of the wall is achieved.
